

The Journey of Te Whare Tangata explores, you, your thoughts, your ideas, your base knowledge about your own sacredness.

You will be asking yourself questions, of 'how come I don't know this beautiful knowledge that belongs to me'.

I need to take you on a journey before leaving you this sacred knowledge, so that you walk safely within the wananga of 'Te Whare Tangata' and the sacred responsibility that we all play, men, women, kaumatua and tamariki in taking care of this whare.

This will connect you with all the elements you need to learn about you, this will help you to connect others to their sacred responsibilities.

Come enjoy the journey.
